Tuck-shop stock program

Logging In:

Login in-In the centre of the frame are two text fields; one for the username and one for your password; please enter in these two fields with their respective required information, once completed press the button log in. Provided the information you entered is correct you will be logged in and the sales frame will appear.

Using the till register

For a new sale- press the button "New Transaction" at the top, the select the item the customer wants using the item ComboBox. Then select the number of that item they want. Once that is done press the button called "Add to Cart". Repeat this process by selecting the item and its quantity until the customer is satisfied. Then type in the amount of money the customer has paid where it says amount paid. Then press the button called checkout.

Admin work

Viewing all items

This frame requires no input, but rather lists all the items stored in the file and displays the Item number, description, units left, cost price, selling price and date of last order.

To return to the main menu, press the button "Main menu"

Viewing a specific item

Clicking on the button "View Item" on the main menu will prompt you to enter a valid item number. Please ensure that you enter a valid item number of the type integer and not enter text.

This frame requires no input, but exists to display the details of a specific item.

If you require to return to the main menu, press the "next" button.

Adding a new item

This frame allows you to add a new item to the Items file.

You may not make changes to the item number as it is the next free item number available.

To enter the new item, please enter the valid description. The description has to be longer that two characters and has to be of the type String.

To select the stock left, click on the combo box and scroll down until you see the number you would like to choose.

To select the cost price of an item, click on the combo box and scroll down until you see the price you would like to choose.

To select the selling price of an item, click on the combo box and scroll down until you see the price you would like to choose. The selling price cannot exceed R20

To select the number of items sold monthly, click on the combo box and scroll down until you see the number you would like to choose.

To select the date of last order, click on the calendar icon and then click on a valid date.

After all valid details have been selected and inputted, pressing next will add the new item to the Items file.

If you wish to go back to the main menu, and not enter a new item, press "Cancel"

Deleting an Item

Clicking on the button "Delete Item" on the main menu will prompt you to enter a valid item number. Please ensure that you enter a valid item number of the type integer and not enter text.

This frame requires no input, but exists to display the details of a specific item that you will be deleting.

If you require to return to the main menu, and cancel deleting the item press the "Main Menu" button.

If you wish to delete the item, press the button "Delete"

Viewing General Information

This frame requires no input, but exists to display the details of the stock. If you require to return to the main menu, press the "next" button.
